

# 2Go

## enrol

*A solution for schools to manage  
enrolment processes*

Product Suite 2021

# Manage enrolment Like never before

## Easy for parents to use

Parents are only asked to provide the right information at the right time.

## Efficient workflow for enrolment staff

Allowing parents and staff to stay informed and use accurate information.

## Full interview booking and calendar

Enrol2Go provides full interview booking for prospective students and calendar functionality.

## Tour booking and attendance

Setup tours, record parent attendance, send school information automatically to attendees

## Admin Systems Integration

Enrol2Go provides direct write back to school administration systems, with no need for export and import.

## Integrated Suite of Solutions

Market leading suite of products focused on security and privacy

# Enrolment Journey

## Enquiry

Receive enquiries and respond to parents

Send links and manage tour bookings.

Distribute information and promotional material

## Application

Manage applications

Gather additional information

Process payment

## Interview

Schedule and allocate interview times for parents to select.

Track applicant progress

Send offers to applicants

## Enrolment

# Enquiry

Prospective parents can submit an enquiry with the school, this stage only requires providing the minimum necessary details for the school to successfully manage a parent enquiry.

Parents can ask subsequent questions, and the school can track and respond.

Parents can also book a school tour once the school has made them available.

Capture essential enquiry data

Parents can update data on a rolling basis

Validated address lookup

Single page to manage all enquiries

Send invites and manage tour bookings

## Enquiry Phase Information Collection

Demographic

Enrolment Information

Family Information

Student information

# Application

Prospective parents can submit an application for their child to attend the school.

This stage will enable schools to collect all the information necessary including supporting documentation, and can also process a payment.

Schools can create interviews and parents can electronically select from the available times.

Capture all relevant application data

Parents can update data on a rolling basis

Validated address lookup

Single page to manage all applications

Send invites to manage interviews

Offer  
declined

Offer  
deferred

## Parent Options

Parents can accept the offer and make a payment if required.

Should they decline the offer, private and confidential information will be deleted by the system.

## Our Vision

To create a process and system that respects privacy and is easy to use for both applicants and schools.

Information can be collected in bite size chunks to ensure the right information is available to the right people at the right time.

This is the beginning of our journey into helping schools adopt and manage digital enrolment. We will ensure our customers drive the direction and ideas for the future.

The Consent2Go Team
